

Please keep broadcast ownership open and free. We have enough control over everything we do, so don't take another of our rights to free speech and free access away from us. We want to be able to hear all sides of all stories, etc. Monopolies and government control are not what we (USA) are made of. We fight for freedom for other countries, let us have the opportunity to learn the truth about all things from all different sources. This will truly add to the respect of our national leaders and its policies.
